

# A REVIEW OF THE MOTHS OF CARMARTHENSHIRE 2008

by Jon Baker  
County Moth Recorder

**KENT BLACK ARCHES *Nola albula***  
**1<sup>st</sup> County Record**

# INTRODUCTION

This is an analysis on the submitted records of macro-moths in Carmarthenshire during 2008. There were 6481 records covering 405 species. This compares with around 6160 records of 404 species in 2007. As with 2007 the summer was a disaster, with very low temperatures, rain seemingly endlessly from May to September, and often strong winds. Not a lot of fun in other words. Moths can cope with some bad weather, but unless we start getting some periods of settled good weather in 2009 I am seriously worried about the long term effects of this.

# ANALYSIS

## 1. New Species

There were very, very few new species added to the county list, mainly due to the lack of micro-moth recording. The following **FIVE** species were recorded as new to the county.

No.	SPECIES	DATE	Location	Grid Ref	Recorded by:
588	<i>Coleophora salicorniae</i>	27/07/2008	Pembrey Burrows	SS4299	Jon Baker
924	<i>Hysterothrausta maculosana</i>	01/06/2008	Cnwc y Llwyn	SN515311	Sam Bosanquet
1239	<i>Pammene rhediella</i>	14/05/2008	Cnwc y Llwyn	SN515311	Sam Bosanquet
442	<i>Pempelia palumbella</i>	28/06/2008	Ty-llwyd, SE of	SN577063	Ian Morgan
2076	Kent Black Arches	19/07/2008	Pendine MOD	SN3007	Jon Baker et al.

## 2. Migrants

A truly appalling year for migrants. **SilverY**, the commonest migrant was very scarce with 39 records of single figures. There were 17 records of **Dark Sword Grass**, a single **Gem**, a **White-speck**, just *one* **Rush Veneer** and 3 **Rusty-dot Pearl**. I don't think I have never known a year so impoverished of migrant excitement. However, as these things seem to happen in a three-yearly cycle, 2009 is set to be a good year, with lots of foreign visitors. Hopefully.

Female **GEM** *Orthonama obstipata*, photo: Martin Lovell.

### 3. Contributors

There were more people contributing this year, despite the weather. Special mention goes to Mat and Ian for their unrivalled enthusiasm in hostile conditions. The following is a list of the main contributors this year.

1.	Mat Ridley	1390 records
2.	Ian Morgan	1242 records
3.	Jon Baker	1205 records
4.	Sam Bosanquet	453 records
5.	Lee Walker	448 records
6.	Huw John	381 records
7.	Dave & Jan Bannister	278 records
8.	Martin Lovell	245 records
9.	Julian Wormald	218 records
10.	Simeon Jones	105 records

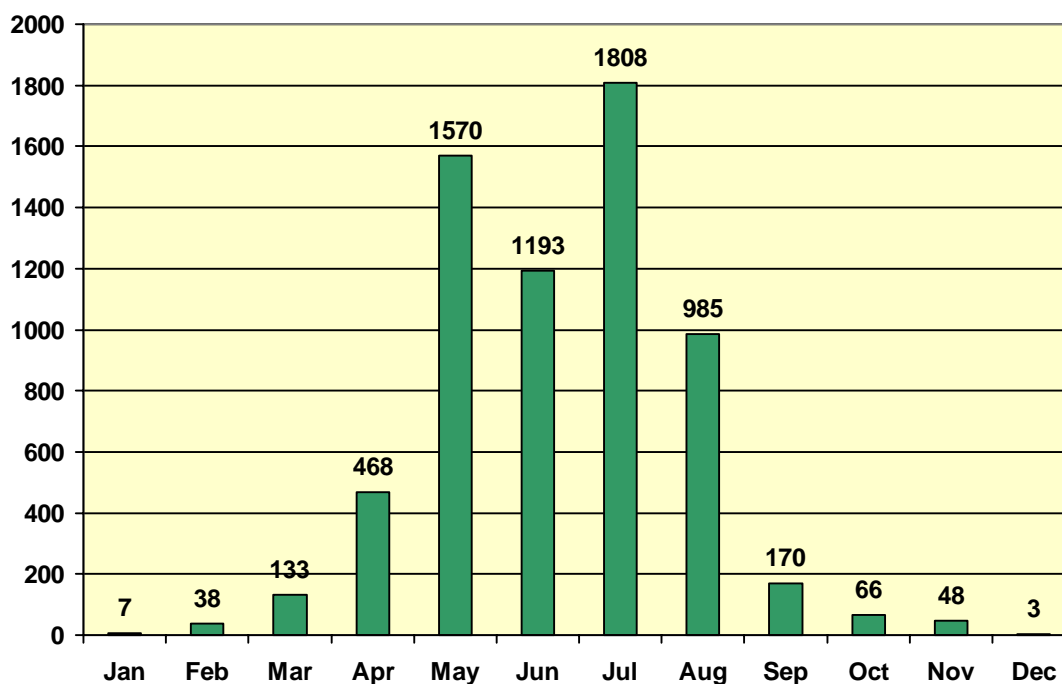

Also submitting records were: Barry & Sandra Stewart, Chris Manley, Colin Jones, David Poulter, David Groom & Faye Sharpley, Keith Williams, Melanie Collier, Tim Vale, Andrew Lucas, Bronwen & Daivd Wright, Isobelle Griffith, Bryan Jones, Cathie Hasler, Alastair Hotchkiss, Tony Lewis, Neil Harvey and Richard Pryce. Thank you to all.

**DARK SPINACH** *Pelurga comitata*

#### 4. Records by Month

A second successive wet and windy summer dampened early enthusiasm. August especially was very poorly recorded, and from there on, interest fell off sharply.

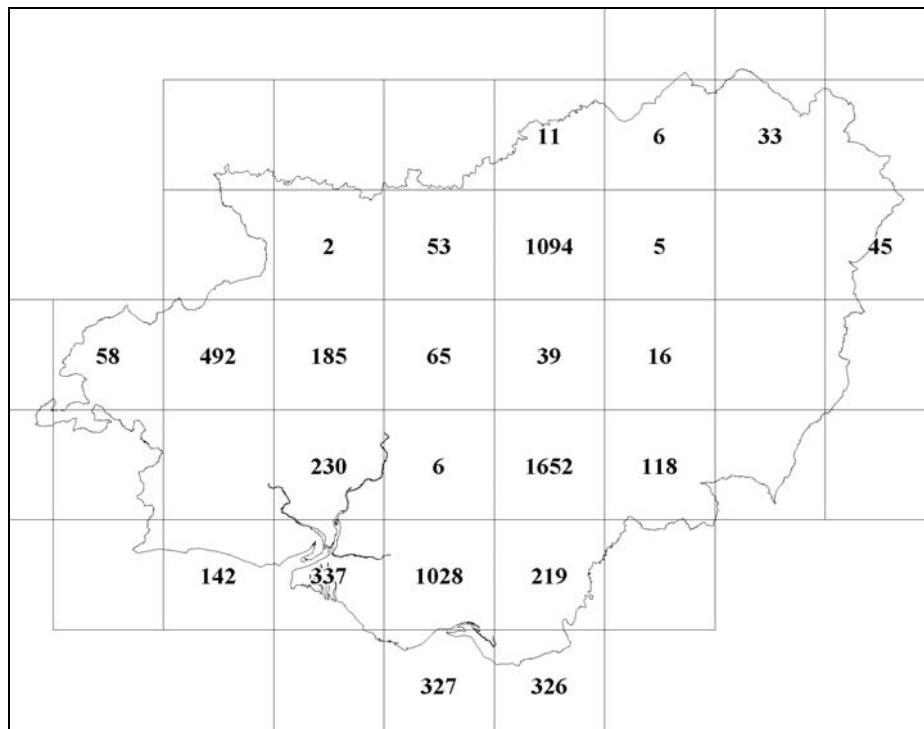

#### 5. Most Frequently Recorded Species

The following is the most frequent by number of records, which does not take into account whether the record refers to an individual moth or multiple moths.

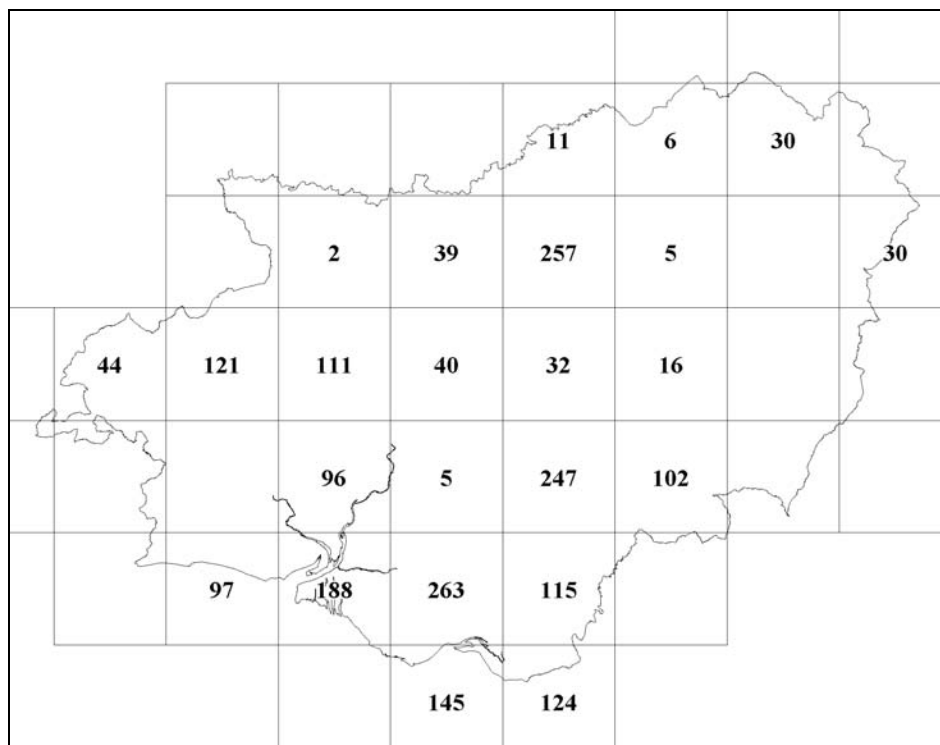

No.	English Name	RECORDS
2102	Flame Shoulder	147
1906	Brimstone Moth	117
1759	Small Phoenix	115
2107	Large Yellow Underwing	107
2190	Hebrew Character	97
2321	Dark Arches	84
1917	Early Thorn	83
1764	Common Marbled Carpet	79
1887	Clouded Border	65
2188	Clouded Drab	65
2187	Common Quaker	63
1776	Green Carpet	62
1738	Common Carpet	62
2089	Heart & Dart	62
2061	Buff Ermine	62
1722	Flame Carpet	60
1931	Peppered Moth	59

1981	Poplar Hawk-moth	57
1713	Riband Wave	57
2343.5	Common Rustic. agg	56
1947	Engrailed	54
1937	Willow Beauty	53
1920	Scalloped Hazel	51
1927	Brindled Beauty	50
1777	July Highflyer	49
2198	Smoky Wainscot	49
2008	Coxcomb Prominent	48
2003	Pebble Prominent	47
1640	Drinker	47
2450	Spectacle	47
1750	Water Carpet	46
2011	Pale Prominent	46
1728	Garden Carpet	46
1727	Silver-ground Carpet	46
2123	Small Square-spot	46
2289	Knot Grass	44
1921	Scalloped Oak	43
2160	Bright-line Brown-eye	43
1653	Buff Arches	42
2028	Pale Tussock	42
1958	Clouded Silver	42
2044	Dingy Footman	42
1994	Buff-tip	41
2126	Setaceous Hebrew Character	41
2182	Small Quaker	40
2381	Uncertain	40
1852	Brindled Pug	40
1724	Red Twin-spot Carpet	39
2441	Silver Y	38
2477	Snout	37
1742	Yellow Shell	37
1961	Light Emerald	37
1902	Brown Silver-line	37

## 7. Extreme Dates

This is the complete list of all macro moth and honorary macro moth species recorded during 2008 in Carmarthenshire. It includes the extreme dates (first sighting and last sighting) in the imago stage, as well as the number of records received. The final column lists the historically earliest date in any given year that the species has been recorded in the county. Records that were broken in 2008 are highlighted in **BLUE**. **54 species out of 405** on the list broke or equalled the species record for emergence. This continues the trend of recent years, but not quite so dramatically as in the previous year, mainly due to the terrible weather. 2009 has seen most early Spring species, once again, breaking their emergence records.

No.	English Name	FIRST	LAST	RECORDS	EARLIEST
14	Ghost Moth	07/06/2008	17/07/2008	5	03/06/2000
15	Orange Swift	29/08/2008	29/08/2008	2	21/07/1993

## HIGHLIGHTS

The following are the most notable records made during the year. Apologies for the species accounts changing format from longhand to table form part way through. This is down to time considerations. Sorry if it's not to anyone's liking. It's the same information, just easier for me to present!

### **161 LEOPARD MOTH *Zeuzera pyrina***

Caught at Glynhir Mansion (SN6315) on 23<sup>rd</sup> July, the 9<sup>th</sup> county record (Barry Stewart et al).

### **163 FORESTER *Adscita statices***

Seen by day on 3rd June in the Gelli area of Rhydcymerau (SN5739) by Julian Wormald. Fourteen previous county records.

### **588 *Coleophora salicorniae***

Caught, and identified from gen. det. by JSB at Pembrey Saltings (SS4299) on 27<sup>th</sup> July. The first county record.

### **924 *Hysterophora maculosana***

Netted by day by Sam Bosanquet at Cnwc y Llwyn, Brechfa (SN5131) on 1<sup>st</sup> June. The first county record. Lives on bluebells *Hyacinthoides non-scripta*.

### **1239 *Pammene rhediella***

Found by day at two sites at Cnwc, Brechfa (SN5131), by Sam Bosanquet on 14<sup>th</sup> May. Photographed. The first county record.

### **1442 *Pempelia palumbella***

Caught on 28<sup>th</sup> June and 10<sup>th</sup> July near Ty-Ilwyd (SN5706) by Ian Morgan. Photographed for confirmation. The first county records.

### **1479 INDIAN MEAL MOTH *Plodia interpunctella***

Following on from last year's first county record at Penclacwydd (SS532985) one was caught indoors by Sam Bosanquet at Cnwc, Brechfa (SN5131), on 27<sup>th</sup> February, shortly after purchasing some bird food imported from China.

**1647 BARRED HOOK-TIP *Watsonalla cultraria***

Recorded in 2007 for the first time since 1971, there was another record this year from the National Botanical Gardens of Wales (SN5218) with two caught on 7<sup>th</sup> May (JSB et al.). Photographed. Lives on beech *Fagus sylvatica*.

**1661 ORANGE UNDERWING *Archiearis parthenias***

Three previous county records. A perfect set of conditions, and the observer effort between 31<sup>st</sup> March and 3<sup>rd</sup> April resulted in five good records of this elusive species, including dozens seen fluttering around birches at Pembrey (SN3803) by JSB, a site I have *very* specifically looked for them at in previous years, on many occasions. This would suggest they have a very narrow flight period, and conditions need to be just right, as they were this time. Also recorded at Abernant, Brechfa (SN5838) by Julian Wormald, and by Ian Morgan at Cencoed-Uchaf (SN4803) and near Ty-Ilwyd (SN5706). Still no one has managed a photo of one.

**1720 GEM *Orthonama obstipata***

The 20<sup>th</sup> county record. Caught at Rhydcymerau (SN5739) by Martin Lovell on 27<sup>th</sup> July. A female, photographed. Unusual, given the lack of any other migration.

**1733 LEAD BELLE *Scotopteryx mucronata***

There were two records this year, on 30<sup>th</sup> May seen by Sam Bosanquet at Figyn Forestry Bog (SN5529) and three seen on 7<sup>th</sup> June by Martin Lovell at Banc Melyn, Brechfa (SN5440). There are seven previous non-Rothamsted records on file.

**1734 JULY BELLE *Scotopteryx luridata***

There are thirteen previous records on the county database. There was one sighting this year, at Glanrhyd (SN5030) on 28<sup>th</sup> June by Dave and Jan Bannister.

**1740 GALIUM CARPET *Epirrhoe galiata***

Fifteen previous records. Two seen at Pal-y-cwrt (SN6718) by Ian Morgan on 25<sup>th</sup> July. A local species in the county, and under-recorded.

**1749 DARK SPINACH *Pelurga comitata***

Just four previous records. Seven caught on 26<sup>th</sup> July by Ian Morgan nr. Llanelli (SN5298), and one caught by JSB et al at Pendine (SN3007) on 2<sup>nd</sup> August are the first records of this species for several years. Photographed.

**1767 PINE CARPET *Thera firmata***

Fourteen previous records. One caught at Cnwc y Llwyn (SN5131) by Sam Bosanquet on 11<sup>th</sup> October. The lack of recording in October was the probable reason there were not more records.

**1779 RUDDY HIGHFLYER *Hydriomena ruberata***

Caught at Rhydcymerau (SN5739) by Martin Lovell on 13<sup>th</sup> May. There are ten previous county records, and though the species is fairly common at Pembrey, it seems very scarce elsewhere.

**1784 PRETTY CHALK CARPET *Melanthia procellata***

Seen on the 14<sup>th</sup> July and 6<sup>th</sup> August by Mat Ridley at Carmel Woods (SN5816). Lives on traveller's-joy *Clematis vitalba*, there are nine previous county records.

**1790 TISSUE *Triphosa dubitata***

With just one previous record from the early 90s, this is a real rarity in the county. So two sightings in the Carmel area by Mat Ridley were excellent, and a highlight of the year. One caught on 26<sup>th</sup> April at SN5816 and also one on 17<sup>th</sup> October at SN5916. Photographed.

**1793 CLOAKED CARPET *Euphyia biangulata***

This species only made it onto the main county list in 2007. I received two more records during 2008, two on 29<sup>th</sup> July at Allt Sgrach (SN8439) and one on the same night at Coed Oeron (SN8338), both seen by Bryan Jones, visiting from Breconshire.

**1804 BARRED RIVULET *Perizoma bifasciata***

Had only previously been seen at Pembrey (six times) so some records from other sites are good news. One on 22<sup>nd</sup> July nr Burry Port (SN4600, Ian Morgan) , at Glynhir Mansion (SN6315) on 23<sup>rd</sup> July (Barry Stewart et al), and on 2<sup>nd</sup> August at Pendine, with three at SN3007 and one at SN2807 (JSB et al.).

**1813 HAWORTH'S PUG *Eupithecia haworthiata***

Six previous records. Very local on traveller's-joy *Clematis vitalba*.

21/07/2008	2	Pembrey Burrows	SS4299	Jon Baker
23/07/2008	n/c	Glynhir Mansion	SN639151	Barry Stewart
27/07/2008	8	Pembrey Burrows	SS4299	Jon Baker

**1839 BORDERED PUG *Eupithecia succenturiata***

Nine previous records. Lives on mugwort *Artemisia vulgaris*.

23/07/2008	1	Pembrey , P.O.	SN4201	Huw John
------------	---	----------------	--------	----------

**1844 OCHREOUS PUG *Eupithecia indigata***

Eight previous records, of which seven are from Pembrey. Lives on conifers.

23/05/2008	3	Pembrey Forest	SN3803	Jon Baker, Lee Walker
------------	---	----------------	--------	-----------------------

**1872 BLOMER'S RIVULET *Discoloxia blomeri***

Six previous records. Lives on wych elm *Ulmus glabra*. **Nationally Scarce B.**

10/06/2008	1	Garn (Wild Cherry Wood)	SN592161	Mat Ridley
14/07/2008	1	Carmel Woods	SN592161	Mat Ridley
23/07/2008	n/c	Glynhir Mansion	SN639151	Barry Stewart

**1879 SERAPHIM *Lobophora halterata***

Three previous records. Lives on various poplars, mainly aspen *Populus tremula*.

23/05/2008	1	Pembrey Forest	SN3803	Jon Baker, Lee Walker
------------	---	----------------	--------	-----------------------

**1964 ANNULET *Charissa obscurata***

A very local species of coast, heath and upland, there have been just seven previous records. Various foodplants.

22/07/2008	2	Carmel Woods	SN591162	Mat Ridley
------------	---	--------------	----------	------------

**1979 LIME HAWK-MOTH *Mimas tiliae***

All eight previous records are from Ian Morgan since 2005, in the Llanelli coastal area. Given that lime *Tilia* is not especially common in the area, Ian hypothesises that elm *Ulmus* may be the foodplant here.

12/05/2008	1	Tyrwaun, Pwll	SN469013	Ian Morgan
29/05/2008	1	Stradey Woods	SN488018	Ian Morgan
30/06/2008	1	Cilymaenllwyd, Pwll	SN474016	Ian Morgan

**1996 ALDER KITTEN *Furcula bicuspis***

Eleven previous county records. Lives on alder and birches.

07/05/2008	1	Tyrwaun, Pwll	SN469013	Ian Morgan
------------	---	---------------	----------	------------

**2038 MUSLIN FOOTMAN *Nudaria mundana***

A larval record from a new location in the county. All six previous county records were from Gelli Aur area.

25/04/2008	larva	Railsgate Pill	SN290094	Barry Stewart
------------	-------	----------------	----------	---------------

**2043 ORANGE FOOTMAN *Eilema sororcula***

Recorded in 2005 and 2006 in Pembrey Forest, and in 2007 along the coast at Pwll (SN4601).

23/05/2008	2	Pembrey Forest	SN3803	Jon Baker, Lee Walker
------------	---	----------------	--------	-----------------------

**2051 FOUR-SPOTTED FOOTMAN *Lithosia quadra***

Nineteen previous records. Now firmly established and spreading.

22/07/2008	2	Ashpits Pond, N of	SN462012	Ian Morgan
24/07/2008	2	Tyrwaun, Pwll	SN469013	Ian Morgan
27/07/2008	1	Pembrey Burrows	SS4299	Jon Baker
02/08/2008	2	Tyrwaun, Pwll	SN469013	Ian Morgan
05/08/2008	1	Tyrwaun, Pwll	SN469013	Ian Morgan
21/08/2008	1	Tyrwaun, Pwll	SN469013	Ian Morgan

**2076 KENT BLACK ARCHES *Nola albula***

The first county record. Lives on dewberry, bramble, raspberry and wild strawberry on the coast. **Nationally Scarce B.**

19/07/2008	1	Pendine MOD, Fen Orchid Lane	SN3007	Jon Baker, et al
------------	---	------------------------------	--------	------------------

**2090 CRESCENT DART *Agrotis trux***

Nine previous records.

02/08/2008	1	Erw Las, Llwynhendy	SS535993	Ian Morgan
------------	---	---------------------	----------	------------

**2104 NORTHERN RUSTIC *Standfussiana lucerneae***

The Four previous records of which three were in 2007. Recorded in two different traps on the same night up at Pal-y-cwrt.

25/07/2008	2	Pal-y-cwrt	SN678183	Ian Morgan
25/07/2008	3	Pal-y-cwrt	SN684184	Ian Morgan

**2135 HEATH RUSTIC *Xestia agathina***

Five previous records of which four were in 2007.

20/08/2008	3	Llyn Llech Owain CP	SN570154	Mat Ridley
24/08/2008	1	Garn-big, Carmel	SN585157	Ian Morgan
26/08/2008	13	Ty-Llwyd, SW of	SN577063	Ian Morgan

**2140 WHITE-MARKED *Cerastis leucographa***

Ten previous county. There are also at least nineteen Rothamsted records.

03/04/2008	1	Nantgwyn	SN365238	Jon Baker
03/04/2008	1	Bryn Llinos, Carmel	SN589167	Mat Ridley
03/04/2008	3	Cnwc y Llwyn	SN515311	Sam Bosanquet
23/04/2008	n/c	Gelli Isaf, Rhydcymerau	SN5739	Martin Lovell
05/05/2008	1	Cnwc y Llwyn	SN515311	Sam Bosanquet

**2142 BEAUTIFUL YELLOW UNDERWING *Anarta myrtilli***

There are seven previous county records of this day-flying species.

30/05/2008	1	Figyn Common main bog	SN557302	Sam Bosanquet
04/06/2008	1	Mynydd Figyn	SN586300	Sam Bosanquet

**2145 NUTMEG *Discestra trifolii***

There are ten previous county records of this species: all coastal in the SE corner of the county. Perhaps increasing.

24/06/2008	1	Ashpits Pond, N of	SN462012	Ian Morgan
21/07/2008	1	Pembrey Burrows	SS4299	Jon Baker
22/07/2008	1	Dyfatty Park, wasteground near	SN457009	Ian Morgan, det: JSB

**2162 GLAUCOUS SHEARS *Papestra biren***

Previous county records: just five from SN53, SN61, SN71 and SN32, with at least 15 Rothamsted records (13 from SN74 and 2 from SN23).

23/05/2008	n/c	Gelli Isaf, Rhydcymerau	SN5739	Martin Lovell
------------	-----	-------------------------	--------	---------------

**2204 OBSCURE WAINSCOT *Mythimna obsoleta***

Twenty previous records, almost all from the south-east coastal area.

28/06/2008	1	Berwick roundabout, E of	SS553986	Ian Morgan, det: JSB
------------	---	--------------------------	----------	----------------------

**2237 GREY SHOULDER-KNOT *Lithophane ornitopus***

A scarce species in the county that appears in Autumn, and reappears after hibernation in Spring. Seven previous records.

05/05/2008	1	Cnwc y Llwyn	SN515311	Sam Bosanquet
17/10/2008	1	Garn - big quarry	SN591162	Mat Ridley
26/11/2008	1	Garn - herb paris patch	SN589163	Mat Ridley

**2252 LARGE RANUNCULUS *Polymixis flavicineta***

Nineteen previous records, nearly all from the south-eastern coastal area.

14/09/2008	1	Tyrwaun, Pwll	SN469013	Ian Morgan
18/09/2008	1	Dyfatty Park, wasteground near	SN457009	Ian Morgan
28/09/2008	1	Tyrwaun, Pwll	SN469013	Ian Morgan

**2255 FEATHERED RANUNCULUS *Polymixis lichena***

Four previous records, all previous records being from the south-western coastal area.

17/10/2008	1	Tyrwaun, Pwll	SN469013	Ian Morgan
------------	---	---------------	----------	------------

**2256 SATELLITE *Eupsilia transversa***

Fifteen previous records, of this elusive hibernating species.

08/02/2008	1	Brechfa Village, West of	SN503302	D & J Bannister
22/02/2008	1	Cnwc y Llwyn	SN515311	Sam Bosanquet

**2286 LIGHT SHOULDER-KNOT *Acronicta menyanthidis***

Three previous records. A reminder that any claims still need good photographic proof.

07/06/2008	1	Gelli Isaf, Rhydcymerau	SN5739	Martin Lovell
------------	---	-------------------------	--------	---------------

**2300 OLD LADY *Mormo maura***

There are thirteen previous county records of this elusive species.

08/08/2008	1	14 Job's Well Rd, Johnstown	SN398198	Jon Baker
19/08/2008	1	Glanrhyd, Brechfa	SN503302	D & J Bannister
28/08/2008	1	Pembrey Post Office	SN4201	Huw John

**2312 OLIVE *Ipimorpha subtusa***

Fourteen previous records.

26/07/2008	1	Morfa'r ynys Farm, Llanelli	SS521989	Ian Morgan
02/08/2008	1	Erw Las, Llwynhendy	SS537993	Ian Morgan

**2327 CLOUDED BRINDLE *Apamea epomidion***

Seven previous records. Lives on various grasses and is surprisingly uncommon in the county.

28/07/2008	1	Garn-big, Carmel	SN585157	Ian Morgan, det: JSB
------------	---	------------------	----------	----------------------

**2329 CONFUSED *Apamea furva britannica***

Very tricky to identify, so records need to be properly backed up with photographs. Three previous records, two of which were in 2007.

26/07/2008	1	Ty-Llwyd, SW of	SN577063	Ian Morgan
------------	---	-----------------	----------	------------

**2331 SMALL CLOUDED BRINDLE *Apamea unanimitis***

Just ten previous records of this very local species. I really would urge photographic proof, as this is not an easy species to identify. On this occasion I have decided to accept the record.

28/06/2008	n/c	Glanrhyd, Brechfa	SN503302	D & J Bannister
------------	-----	-------------------	----------	-----------------

**2336 DOUBLE LOBED *Apamea ophiogramma***

Eight previous county records (plus one Rothamsted record). Lives in damp environments where reed canary-grass *Phalaris arundinacea* and reed sweet-grass *Glyceria maxima* grow.

19/07/2008	2	Pembrey Post Office	SN4201	Huw John
27/07/2008	1	14 Job's Well Rd, Johnstown	SN398198	Jon Baker
02/08/2008	1	Erw Las, Llwynhendy	SS535993	Ian Morgan

**2357 LARGE EAR *Amphipoea lucens***

Dissection of ears continues to record this species in the county. Six previous records.

23/07/2008	1	Llangennech	SN566013	Ian Morgan, det: JSB
06/08/2008	1	Ty-Llwyd, SW of	SN577063	Ian Morgan, det: JSB

**2371 BROWN-VEINED WAINSCOT *Archanara dissoluta***

Nineteen previous records, mainly from the Pembrey area.

27/07/2008	1	Pembrey Burrows	SS4299	Jon Baker
------------	---	-----------------	--------	-----------

**2372 WEBB'S WAINSCOT *Archanara sparganii***

Twelve previous county records. All have come from SN30, SN40 and SS59. The Pendine record is therefore a new 10km square and the first from the western coast.

02/08/2008	1	Pendine MOD, Witchett Pool Lane	SN2807	Jon Baker, et al
06/08/2008	4	Berwick Farm, SW of	SS545986	Ian Morgan

**2435 SCARCE BURNISHED BRASS *Diachrysia chryson***

Twenty-six previous records, nearly all from the south-east. **Nationally Rare A.** Lives on hemp agrimony *Eupatorium cannabinum*.

19/07/2008	3	Pendine MOD, Witchett Pool Lane	SN2807	Jon Baker, et al
25/07/2008	1	Pembrey Post Office	SN4201	Huw John
26/07/2008	1	Glynhir Mansion	SN641151	B & D Wright

**2452 RED UNDERWING *Catocala nupta***

Four previous records (in 2005-6). Seems to (hopefully) be spreading west.

29/08/2008	1	Tyrwaun, Pwll	SN469013	Ian Morgan
------------	---	---------------	----------	------------

**2470 SMALL PURPLE-BARRED *Phytometra viridaria***

Seventeen previous county records. IKM would like me to correct what I said in an earlier report (that Sam's record was the first inland county record) having brought my attention to a previous record of his.

29/05/2008	1	Pwllau Cochion	SN499266	Sam Bosanquet
21/07/2008	1	Pembrey Burrows	SS4299	Jon Baker
27/07/2008	1	Pembrey Burrows	SS4299	Jon Baker
02/08/2008	1	Pendine MOD, Fen Orchid Lane	SN3007	Jon Baker, et al

**2485 MARSH OBLIQUE-BARRED *Hypenodes humidalis***

Eighteen previous county records of this funny little species that can be overlooked so easily as a boring "micro".

28/07/2008	11	Garn-big, Carmel	SN585157	Ian Morgan
------------	----	------------------	----------	------------

**THANK YOU TO ALL WHO MADE THIS REPORT POSSIBLE. GOOD LUCK FOR 2009, AND KEEP YOUR RECORDS COMING IN. REMEMBER.... IT SHOULD BE A GOOD YEAR FOR MIGRANT MOTHS (every third year...)**

JON BAKER, March 2009.
